2 February 2026

Dear Parents & Carers,

We are writing to share some information with you following advice from the UK Health Security Agency (UKHSA).

The school has been informed that there has been a case of tuberculosis (TB) linked to an individual at the school. UKHSA has advised us that the overall risk to the wider school community is low, and we want to assure you that this situation is being carefully managed in line with national public health guidance.

Working closely with UKHSA, a small number of individuals who had closer and more prolonged contact in early December have been identified and contacted directly. Those individuals have been invited to take part in routine, precautionary screening. If you have not been contacted separately, no action is required.

Waverley School remains open and safe as usual, with attendance for children and staff required as normal.

We understand that news like this may raise questions. If you have any health concerns, or if your child develops symptoms that you are worried about, we recommend contacting your GP for advice.

Further information about TB, including symptoms and treatment, is included in the attached information sheet.

Thank you for your continued support and understanding.

Yours sincerely,

Chris King
Executive Principal

Satnam Dosanjh
Principal
Waverley School - Primary

Hugh Derry
Principal
Waverley School -
Secondary & Sixth Form
